

MILLORES

No he implementat cap millora, ja que me'n sortia el 100% a l'hora d'entrenar-lo.

```
Training: 100.00% |██████████████████| 10/10 [00:00<00:00, 68.45it/s]
Evaluating: 100.00% |██████████████████| 3/3 [00:00<00:00, 203.34it/s]
Epoch 17/20 (Train: loss: 0.21, accuracy: 1.00) (Eval: loss: 0.21, accuracy: 1.00)
New best model saved with eval accuracy 100.00%

Training: 100.00% |██████████████████| 10/10 [00:00<00:00, 66.59it/s]
Evaluating: 100.00% |██████████████████| 3/3 [00:00<00:00, 206.32it/s]
Epoch 18/20 (Train: loss: 0.17, accuracy: 1.00) (Eval: loss: 0.18, accuracy: 1.00)

Training: 100.00% |██████████████████| 10/10 [00:00<00:00, 68.82it/s]
Evaluating: 100.00% |██████████████████| 3/3 [00:00<00:00, 185.19it/s]
Epoch 19/20 (Train: loss: 0.15, accuracy: 1.00) (Eval: loss: 0.15, accuracy: 1.00)

Training: 100.00% |██████████████████| 10/10 [00:00<00:00, 68.09it/s]
Evaluating: 100.00% |██████████████████| 3/3 [00:00<00:00, 212.15it/s]
Epoch 20/20 (Train: loss: 0.12, accuracy: 1.00) (Eval: loss: 0.12, accuracy: 1.00)
super@Ubuntu-24-04-v9:~/Documents/DAM-Algorismes-main (2)/Exercici0mpes$
```

He canviat el Metadata:

```
Exercici0mpes > {} model_metadata.json > ...
1 {"categories": ["eng", "other"], "label_encoder": ["eng", "other"]}
```

També he tocat una mica del model_config per poder agafar millor la informació del document:

```
Exercici0mpes > {} model_config.json > {} model_configuration > [ ] layers
1 {
2   "paths": {
3     "data": "./data/engorother.csv",
4     "trained_network": "model_network.pth",
5     "metadata": "model_metadata.json"
6   },
7   "columns": {
8     "categories": "label",
9     "text": "phrase"
10  }
```

I he creat el ai_classify_singles amb un input y les respostes:

```
51
52     text = input("Write something: ")
53     predicted_label, confidence = predict_text(text, model, tokenizer, device, config)
54
55     if predicted_label == 1: # 0 represents 'eng'
56         print("This is English")
57     else:
58         print("I don't understand you")
59
60 if __name__ == "__main__":
61     main()
```
